

PINNACLE
SERIES 10
ALUMINUM WINDOWS

Solid in construction and easy to install, the Pinnacle Series is another quality choice in aluminum windows. Its thick frame provides stability, reduces outside noise and provides for an airtight fit for better energy efficiency. And as with every Croft window, the Pinnacle Series is built for life.

STRENGTH

- 2 1/2" frame depth
- Sash is enclosed in frame

ENERGY SAVINGS

- Energy efficient 5/8" Intercept glass
- Full range of glass packages offer increased thermal performance
- Interlock system provides airtight fit

BEAUTY

- Painted with a baked-on polyester finish which resists scratching and chipping
- Available in a variety of colors and grid patterns
- Sloped sill for traditional look to home exterior

RELIABILITY AND CONVENIENCE

- Integral pre-punched nail fin for new construction
- Sloped sill for optimal water drainage
- Block and tackle balance system for easy operation and maintenance
- Wrap-around marine glazing on bottom sash
- Bottom sash is removable for easy cleaning and replacement
- Windows snap together for multiple units

Optional Glass Packages Include:
Tempered, Tinted, Obscure, Low-E
and Argon Gas Filled
