

**SUMMIT
SERIES 4000
ALUMINUM WINDOWS**

With unparalleled strength and energy efficiency, the Summit Series is the signature aluminum window in the industry. Its hard surface resists weathering, reduces outside noise and has an optional thermal break to reduce heat and cold transfer. And as with every Croft window, the Summit Series is built for life.

STRENGTH

- 2 1/4" frame depth
- Continuous head and sill on twins and triples

ENERGY SAVINGS

- Energy efficient 5/8" Intercept glass
- Full range of glass packages offer increased thermal performance
- Interlock system provides airtight fit
- Optional thermally broken frame and sash offers increased thermal performance (4420 frame only) (4440 frame and sash)

BEAUTY

- Painted with a baked-on polyester finish which resists scratching and chipping
- Available in a variety of colors and grid patterns
- Sloped sill for traditional look to home exterior

RELIABILITY AND CONVENIENCE

- Integral pre-punched nail fin for new construction-Sloped sill for optimal water drainage
- Spiral balance system for easy operation and maintenance
- Top and bottom glass panels are removable for pass-through construction and easy glass replacement
- Wrap-around marine glazing
- Bottom sash tilts for easy cleaning

Optional Glass Packages Include:
Tempered, Tinted, Obscure, Low-E
and Argon Gas Filled
